

Join the Nanticoke Creekwatchers Citizen Water Monitoring Volunteer Corps in 2012

Want to meet new people, spend time outdoors, accumulate data using scientific water monitoring equipment, learn more about the health of your local waterways and be the backbone of the Nanticoke River Report Card?

Water monitoring is a commitment of every other week on Sundays or Mondays from April through November. We currently have sites that need to be adopted throughout the Nanticoke watershed in Maryland and Delaware.

*Join us for an informational presentation about the Creekwatchers program at the **Laurel Public Library on Wed., Feb. 22 at 6:30 PM 101 East 4th Street Laurel, DE 19956***

Join the Nanticoke Creekwatchers Citizen Water Monitoring Program, an award-winning, energetic, and well-trained volunteer corps, and YOU can become "Creekwatchers Certified"!

In 2012, we will be:

- Celebrating our fifth full season of data collection
- Sharing site data throughout the year via Google Earth and Google Maps

Training is on Saturday, March 24 in Vienna, MD
