September 25<sup>th</sup>**

To RSVP, complete the registration form or contact Lisa Baird at ~ 410-443-8878 or [lisabaird@nanticokeriver.org](mailto:lisabaird@nanticokeriver.org)

Watershed Implementation Plans (WIPs) are key elements to restore the Bay's health, as they outline steps to achieve nutrient and sediment reductions. This meeting will focus on positive progress made with WIP implementation.

Join us to hear statewide and local examples of:

- Successful WIP Projects
- Innovative Funding Sources
- Productive Partnerships
- Regional Approaches to the WIP

In addition to statewide updates from both Maryland and Delaware, local project examples include: Rain Gardens, Green Infrastructure and Stormwater, Wastewater Treatment, a Septic Loan Program and much more!

See the attached Agenda for more information. We hope you can join us to learn from successful examples of WIP implementation and share your own ideas.

*This meeting is open  
to anyone interested  
or involved in  
assisting with  
WIP implementation*
